LETTER OF RECOMMENDATION

LNBID : IN23PM88494723469

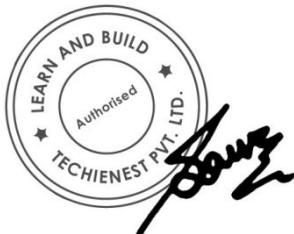

It is with great pleasure and pride that I am writing a letter of recommendation to **Saksham Bansal** as his/her manager and mentor at Learn and Build, Jaipur, I have known him professionally and personally for **30 Days** and hence, I have had the time to analyze, guide, and encourage his/her abilities.

In my observation, he/she has the ability to complete the tasks assigned to him/her with minimum guidance, making him intellectually independent. At the same time, he/she shows the rare and essential character to be a team person and work closely with his/her colleagues in achieving the set goals.

He/She is a very caring person and can be assigned to handle critical situations. As a member of his/her team, he/she guides his team to test both positive and negative scenarios to ensure that the new changes do not affect the production system. Along with this he/she also works on promotion, new implementation, and management- functions which are usually handled by experienced members.

Saksham Bansal is a creative person with a passion for technology and management. I would like to highlight his/her work in an Front End Web Development intern position, where he/she proved his/her ability as an effective employee by helping co-workers with knowledge transitions, thereby increasing company revenue.

I have found him/her to be a reliable, hardworking, and dedicated member of my team. Therefore, I strongly recommend his/her application to your esteemed university, which will help them to improve his/her knowledge and make his/her dreams come true.

Kind regards,
Saurabh Bhardwaj
